High quality Implant Foundry Services
- Small FABs which exceed their capacity.

Service Scope
- Medium & High Current, Wafers from 6" to 8"

Company Overview

SEMITECH has become the global company by gaining customer's recognition around the world through the export.

Now, we are performing the record of \$500 million of actual exports and growing at a steady pace.

Based on creative technical development and dynamic experimentalism, we have taken the initiative in the

world's high technologies, and our open mind, together with our endless passion and challenge for technical development, will make the blueprint of technical Korea.

With the engine of 2010's growth, SEMITECH will become the worldwide semiconductor equipment's company and develop repeatedly.

We guarantee to meet the customer satisfaction and become a reliable partner.
